

DANIELE BOTTESELLE

CINEMATOGRAPHER

FILMOGRAPHY

Daniele is from Prato, Italy and his background and training in the business began when he took part in a series of cinematography workshops by Rob Draper in Los Angeles, and then consequently a workshop with Vittorio Storaro in Florence, Italy.

A year after commencing with his first jobs in Italy, he moved to Germany for three months where he gained work experience at "Radio Bremen Ferseen" as a DOP for documentary and fiction programmes.

Since 2000, Daniele has been working on a range of projects; from commercials, music videos, and in the last 3 years working with Mediaset Productions and Endemol Italia on several productions for television. In 2008, he did his first feature film, 'Cenci in Cina', shot on 35mm which became a box office hit in the Tuscan region.
